

- 19 The diagram below shows two equal and opposite charges which are a fixed distance apart in a non-uniform electric field E , for which lines of force are shown.

The pair of charges experiences

- A a resultant force in the plane of the paper but no torque.
- B a resultant force in the plane of the paper and a torque.
- C a resultant force normal to the plane of the paper but no torque.
- D a resultant force normal to the plane of the paper and a torque.
