

- 19** The diagram shows the path of a charged particle through a uniform electric field, having vertical field lines.

What could give a path of this shape?

- A** A positive charge travelling left to right in a field directed downwards.
- B** A positive charge travelling right to left in a field directed downwards.
- C** A negative charge travelling right to left in a field directed upwards.
- D** A negative charge travelling left to right in a field directed downwards.
