

- 25** A uniform magnetic field of flux density  $B$  passes normally through a plane area  $A$ .  
A coil of eight turns of wire, each of area  $\frac{1}{4} A$ , lies in this plane.

What is the magnetic flux linkage for the coil, expressed in terms of  $B$  and  $A$ ?

- A**  $\frac{1}{4}BA$                       **B**  $BA$                       **C**  $2BA$                       **D**  $8BA$
