

21 The diagram shows two points P and Q which lie 90° apart on a circle of radius r .

A positive point charge at the centre of the circle creates an electric field of magnitude E at both P and Q.

Which expression gives the work done in moving a unit positive charge from P to Q?

A 0

B $E \times r$

C $E \times \left(\frac{\pi r}{2} \right)$

D $E \times (\pi r)$
