

1

A computer memory stick is labelled as having a storage capacity of 128 GB.

The letter B stands for byte, which is a unit.

What is the equivalent storage capacity, in B?

A

$$1.28 \times 10^8$$

B

$$1.28 \times 10^9$$

C

$$1.28 \times 10^{10}$$

D

$$1.28 \times 10^{11}$$
