

- 16 The diagram shows the displacement-time graphs of two sound waves P and Q at a point in space. The graphs have the same scales for the time axes.

The frequency of Q is 125 Hz. The waves are in phase at time = 0.

At what time are the waves next in phase?

A 32 ms

B 36 ms

C 64 ms

D 72 ms

- 17 Which of the following represents the total displacement if wave P is reflected from a rigid wall?
