11 A particle is oscillating in simple harmonic motion. The kinetic energy of the particle is E_K, its potential energy is E_P and the total energy is E_T.

When the particle is mid-way between the equilibrium position and an amplitude position, what are the values of the ratios $E_K : E_T$ and $E_P : E_T$?

	$E_K : E_T$	$E_P : E_T$
A	1 : 4	3 : 4
B	1 : 2	1 : 2
C	2 : 3	1 : 3
D	3 : 4	1 : 4
