18 The electric potential and the electric field strength due to a point charge at distance d from the charge is V and E respectively.

What is the electric potential and the electric field strength at a distance $\frac{d}{4}$ from the point charge?

	electric potential	electric field strength
A	$4V$	$8E$
B	$4V$	$16E$
C	$8V$	$8E$
D	$8V$	$16E$
