

		solid greater than that of liquid.
14	D	For large amplitude vibration (resonance), natural frequency must be equal to driving frequency (in this case it is the frequency of hitting the bumps). $T = \frac{1}{2.0} = 0.50 \text{ s}$ $d = vt$ $5.0 = v (0.50)$ $v = 10 \text{ m s}^{-1}$

Qn	Ans	Solution
15	C	1. 2
