1	**Answer: D**
	$\mu = \dfrac{vL\rho}{R} \Rightarrow R = \dfrac{vL\rho}{\mu}$ [units of R] = [units of v][units of L][units of ρ][units of μ]$^{-1}$ $= [\text{m s}^{-1}][\text{m}][\text{kg m}^{-3}][\text{N s m}^{-2}]^{-1}$ $= [\text{kg m}^{-1}\ \text{s}^{-1}][\text{kg m s}^{-2}\text{s m}^{-2}]^{-1}$ $= [\text{kg m}^{-1}\ \text{s}^{-1}][\text{kg m}^{-1}\ \text{s}^{-1}]^{-1}$ = no units (dimensionless)
