$|a_0| = (\omega)^2 x_0 = 8.0 \times 0.25 = 16 \text{ m s}^{-2}$

14 **D** $\lambda = 16$ m from diagram (C to C or R to R)

$f = \dfrac{16}{16} = 1.0$ Hz

15 **D** $\dfrac{d}{\quad} = \dfrac{2}{\quad}$
