Hence $p = \frac{1}{2}$, $q = -\frac{1}{2}$

2 Ans: A

$F = BIL$

$B = F / IL = Ft/QI$ since $I = Q/t$

Units of $B = NA^{-1}m^{-1} = NsC^{-1}m^{-1}$ (This eliminates option B and C)

$\Phi = BA$
$B = \Phi / A$

Units of $B = Wb\ m^{-2}$ (This eliminates option D)
