

		(g) g
4	B	3 forces must intersect at the same point for the system to be in static equilibrium.
5	C	From Fig A, $1.0 \text{ g} = 1.2 a_A$ From Fig B, $0.2 \text{ g} = 1.2 a_B$ $a_A : a_B$ $= 1.0 : 0.2$ $= 5 : 1$
6	A	A: Gravitational pull depends on mass of object and gravitational acceleration due to Earth
