

- 3 Average force on the wall = average force on the balls according to Newton's 3rd law.

average force on the balls =

$$\begin{aligned}\langle F \rangle &= \left(\frac{dp}{dt} \right)_{balls} \\ &= \frac{300 \times 10^{-3} (10 - (-7))}{5} \\ &= 1.0 \text{ N}\end{aligned}$$

Answer: D

- 4 The couple due to B and C is anti clockwise with a magnitude of $10d$ Nm where d is the
