

10	C	All 3 are in thermal equilibrium with each other, thus no net heat transfer between them.
11	A	$\frac{1}{2}mc_{rms}^2 = \frac{3}{2}kT$ $\Rightarrow c_{rms}^2 \propto T$ $\frac{T}{2T} = \frac{c_{rms}^2}{c_{new rms}^2}$ $c_{new rms} = \sqrt{2}c_{rms}$
