

1 D Electric field strength $E = F/q$, units = $\text{NC}^{-1} = \text{kgms}^{-2}(\text{As}) = \text{kg ms}^{-1}\text{A} \rightarrow 4$ base units

Power $P = Fv$, units = $\text{kgms}^{-2} \text{ms}^{-1} = \text{kgm}^2 \text{s}^{-3} \rightarrow 3$ base units

2 A From graph, angular deflection of the needle increases at a decreasing rate as the
