

		$\overline{R_y} = \left(\frac{1}{3} \right) = 0$
12	B	Using $P = \frac{1}{3} \rho v_{rms}^2$ $100\,000 = 0.178 v_{rms}^2 / 3$ $v_{rms} = 1.3 \times 10^3 \text{ m s}^{-1}$
13	A	Using $pV = nRT$
