

			$\text{New } T = 3/3 \times 4 = 2252 \text{ K}$
	15.	D	Bob has maximum PE at $t = 0$ means that object starts at either extreme positions at $t = 0$. Since acceleration is proportional to displacement, the acceleration should be either a positive maximum or negative maximum at $t = 0$.
	16.	A	$\text{Max force} = m a = m \omega^2 x$
