

1.	A	WORK, magnetic flux density
2.	C	True $g = 9.81$ mean $\langle g \rangle = 9.242$ – large systematic error - not accurate $\Delta g = (9.25 - 9.23)/2 = 0.02$ – small random error – precise
3	B	$\Delta t = 6 \text{ s}$ $\Delta C = 54 \text{ m/s}$ $\Delta C = (15 \times 6) = (14 \times 6 \times 6^2) = 54 \text{ m/s}$ $\Delta g = 2.0 \text{ ms}^{-2}$
