

ρ

- 2 C** The absolute uncertainty of the diameter is $0.02 \times 5.0 = 0.1$ cm.
The absolute uncertainty of the radius will be $0.1 \text{ cm} / 2 = 0.05$ cm
The fractional uncertainty of the radius will be $0.05 \text{ cm} / 2.5 \text{ cm} = 0.02$.

- 3 A** a-t graph obtained from gradient of v-t graph
