

- 12 The diagram below represents equipotential lines of a gravitational field.

Which of the following is the direction and strength of the field at point P?

	direction	strength
A	→	5.0 N kg ⁻¹
B	←	5.0 N kg ⁻¹
C	→	13 N kg ⁻¹
D	←	13 N kg ⁻¹

12	A	Use $E = -\Delta V / \Delta r = (-20 - (-30)) / 2 = 5.0 \text{ N kg}^{-1}$
-----------	----------	--

12. A pair of twins of equal masses travel on separate express trains that run along the Earth's
