

|  |    |   |                                                                                                              |
|--|----|---|--------------------------------------------------------------------------------------------------------------|
|  | 16 | D | D is always not true because the damping force can be in the same direction as the acceleration of the body. |
|  | 17 | A |                                                                                                              |
|  | 18 | D |                                                                                                              |
