

Qn	Key	guide
1	B	Change in vector = final – initial
2	D	Option A $\rightarrow$ 2500 W per hour Option B $\rightarrow$ Based on J1 practical exercise $\sim 1.9 \text{ m}^2$ Option C $\rightarrow \frac{1}{2}(100)(10)^2 = 5000 \text{ J}$ Option D $\rightarrow$ Atmospheric pressure is already 100 KPa
3	C	Equation of motion $v^2 = u^2 + 2as$ gives $v = \sqrt{2}$ gives
