		pair is the gravitational force on the Earth by the person
5	**D**	Let the time of fall be t_1 $s = ut_1 + ½ gt_1^2$ $t_1 = 3.988$ s Time for the sound to travel up the well $t_2 = 78.0/330 = 0.236$ s Total time = $t_1 + t_2 = 4.224$ s
6	**D**	electric power × efficiency = gain in gravitational PE per unit time
