

10 L2	Solution: C	

$$P = \frac{1}{3} \frac{Nm}{V} v_{rms}^2$$

$$P = \frac{1}{3} \rho v_{rms}^2$$

$$100000 = \frac{1}{3} (0.180) v_{rms}^2$$

$$v_{rms} = 1290 \text{ m s}^{-1}$$
