

15
L2

Solution: **D**

$$I \propto A^2$$

For maximum intensity, $I_o \propto (2A + A)^2$

For minimum intensity, $I \propto (2A - A)^2$

$$\frac{I}{I_o} = \left(\frac{A}{3A} \right)^2$$

$$I = \frac{I_o}{9}$$

16

Solution: **B**
