

Hence units of $C = A^2 \text{ s}^4 \text{ m}^2 \text{ kg}^{-1}$

3

Ans: C

$$s_y = u_y t + \frac{1}{2} a_y t^2$$

$$-8.0 = 0 + \frac{1}{2} (-9.81)t^2$$

$$t = 1.3 \text{ s}$$

4

Ans: C
