

3. A stone is thrown vertically upwards. A student plots the variation with time of its velocity.

What is the vertical displacement of the stone from its starting point after 5 seconds?

- A** 20 m **B** 25 m **C** 45 m **D** 65 m

Answer: B

$$\text{distance} = \text{area under graph} = \frac{1}{2} \times 30 \times 3 - \frac{1}{2} \times 20 \times 2 = 25 \text{ m}$$
