

- 5 A body of mass 2.0 kg is moving along a smooth horizontal surface to the right with a constant velocity of 18 m s^{-1} when a left force is applied on it for 7 s . The graph below shows how the applied force varies with time.

What is the final velocity of the body after 7 s ?

- A 12 m s^{-1} to the right
- B 48 m s^{-1} to the right
- C 12 m s^{-1} to the left
- D 48 m s^{-1} to the left
