

12	Two stationary particles of masses M_1 and M_2 are a distance d apart. A third particle, lying on the line joining the particles, experiences no resultant gravitational force. What is the distance of this particle from M_1?			
	A	$\left(\frac{M_1}{M_1+M_2}\right) d$	B	$\left(\frac{M_2}{M_1+M_2}\right) d$
