

$$\omega = 2\pi/T$$

- 16** Which of the following shows oscillation of decreasing order of damping?
- A** critical damping, light damping, heavy damping.
 - B** critical damping, heavy damping, light damping.
 - C** heavy damping, critical damping, light damping.
 - D** critical damping, heavy damping, free oscillation.

Ans: C

- 17** A wave has a frequency of 5 Hz. It travels through a medium at a speed of 8 km s⁻¹
