

hand Grip Rule and deduce the resultant direction.

24.

Ans: B

$$|\varepsilon| = \left| -\frac{\Delta\Phi}{\Delta t} \right| = \frac{0.025 \times 0.70}{0.80} = 0.02188 \text{ V}$$

$$\text{Energy dissipated} = Pt = \left(\frac{\varepsilon^2}{R} \right) t = \left(\frac{0.02188^2}{0.0020} \right) (0.80) = 0.191 \text{ J}$$

25

Ans: A
