

Q2

$$\begin{aligned}\text{Diameter of four balls} &= (Y-X) \pm (\Delta Y + \Delta X) \\ &= (4.0 \pm 0.4) \text{ cm}\end{aligned}$$

$$\begin{aligned}\text{Diameter of one ball} &= \frac{(4.0 \pm 0.4)}{4} \\ &= (1.0 \pm 0.1) \text{ cm}\end{aligned}$$

Ans: A
