

Solutions to Paper 1

1	D	Temperature difference = $\theta_f - \theta_i = 80 - 20 = 60\text{ }^{\circ}\text{C}$ Absolute uncertainty, = $\Delta\theta_f + \Delta\theta_i = 0.5 + 0.5 = 1\text{ }^{\circ}\text{C}$ Percentage uncertainty = $\frac{1^{\circ}\text{C}}{60^{\circ}\text{C}} \times 100\% = 1.7\%$
2	B	The object starts from rest and moves along a straight line
