

2024 HCL Preliminary Examination Paper 2 Suggested Solutions

Q1		
(a)	During the collision, there are <u>no external forces acting on the photon and electron or system</u> , hence linear momentum is conserved.	B1
(b)(i)	1. $\Sigma p_x = 7.30 \times 10^{-22} \text{ kg m s}^{-1}$	B1
	2. $\Sigma p_y = 0 \text{ kg m s}^{-1}$	B1
