

ANSWER: C

Q13 By Malu's law, $A_f = A \cos \theta$

2024/JPJC/PHYSICS/9749

[Turn over

4

Since $I \propto A^2$, $I_f = k(A \cos \theta)^2 = kA^2 \cos^2 \theta$

Since power is proportional to intensity, power is proportional to $A^2 \cos^2 \theta$.

Answer: A

Q14 In order to get destructive interference at O, the path difference of waves moving
