

**Q25 Ans: D**

Using  $I_{rms} = \frac{P}{V}$

$I_{rms}$  ranges from 9.55 A to 10.4 A

$I_o$  ranges from 13.5 A to 14.7 A

Hence most probable expression for the current is  $I = 14.1 \sin (375t)$

**Q26 Ans: C**
