

$$= 11 \text{ cm}^3$$

Q2 Ans: C

Explanation

change in velocity = total area under graph

$$\text{total area under graph} = \frac{1}{2} \times 4.0 \times 2.4 + \left(-\frac{1}{2} \times 6.0 \times 3.6\right) = -6.0 \text{ m s}^{-1}$$

Q2 Ans: A
