

- 3 An object was projected vertically up into the air from the edge of a rooftop. The displacement-time graph for the motion is shown below.

From the graph, which of the following is true?

- A At the time 0 s, the speed of the object was 0 m s^{-1} .
- B At the time 2.5 s, the speed of the object was 31 m s^{-1} .
- C At the time 2.5 s, the acceleration of the object was 0 m s^{-1} .
- D After the time 2.5 s, the direction of the velocity of the object was reversed.
