

- 8 A mass is attached to one end of a spring as shown in Fig. 8a and is slowly lowered to its equilibrium position as shown in Fig. 8b. (Diagram is not drawn to scale.)

Fig. 8a

Fig. 8b

What are the possible changes in elastic potential energy (EPE) and gravitational potential energy (GPE)?

	change in EPE / J	change in GPE / J
A	0.20	0.20
B	0.10	0.20
C	0.15	0.05
D	0.05	0.15
