1 In a certain experiment, the angle α and the mass M are related by the following expression.

$$\tan\alpha = \frac{P}{\sqrt{M}} + Q$$

What are the units of P and Q?

	units of P	units of Q
A	$\mathrm{kg}^{-\frac{1}{2}}$	degrees
B	$\mathrm{kg}^{-\frac{1}{2}}$	unitless
C	$\mathrm{kg}^{\frac{1}{2}}$	degrees
D	$\mathrm{kg}^{\frac{1}{2}}$	unitless
