

18	The images of two sources are just resolved. Which of the following is a correct statement of the Rayleigh criterion for this situation?	
	A	The central maximum of the diffraction pattern of one source must coincide with the central maximum of the diffraction pattern of the other source.
	B	Light from the sources must pass through a circular aperture.
	C	Light from the sources must be coherent.
	D	The first minimum of the diffraction pattern of one source must coincide with the central maximum of the diffraction pattern of the other source.

		Ans: D
