

the glass block.

- 18** The diagram below shows two metal spheres **X** and **Y** which are placed close to each other but not in contact. **X** is positively charged and **Y** is earthed.

Which of the following is correct for Y?

	Electric potential on Y	Charge on Y
A	Negative	Zero
B	Negative	Negative
C	Zero	Negative
D	Positive	Positive

Ans: C

X being positively charged induces a negative charge on Y. Y being connected to earth has zero potential.

19 Which one of the following statements about the electric potential at a point is true?
