

electrons will also decrease.

Q28 Ans: A

Find min Δp :

$$\Delta x \Delta p \approx h$$

$$\Delta p \approx \frac{6.63 \times 10^{-34}}{1.3 \times 10^{-7}} = 5.1 \times 10^{-27} \text{ N s}$$

Since direction of Δx is vertical, the direction of Δp must also be vertical.

Q29 Ans: C
