

Q22

Ans: B

5

Along y-direction,

$$F_y = F_2 \sin 45^\circ - F_1 = BIL_1 \sin 45^\circ - BIL_2$$

$$= BIL_2 - BIL_2 = 0$$

Along x-direction, $F_x = F_2 \cos 45^\circ - F_1$

$$= BIL_1 \cos 45^\circ - BIL_2$$

$$= BIL_2 - BIL_2 = 0$$

Therefore net resultant magnetic force = 0

Ans: D
