

Q3.

Total distance travelled by the car over 10 s = $20 (2.0) + 40 (2.0) + 60 (6.0) = 480 \text{ m}$

Overall average speed of the car = $480 / (2.0 + 2.0 + 6.0) = 48 \text{ m s}^{-1}$

Ans: D

Q4.
