

27	C	$hf = \phi + eV_s \text{ ---- (1)}$ $h\frac{f}{2} = \phi + eV_s' \text{ ----(2)}$ (1) – (2): $h\frac{f}{2} = eV_s - eV_s'$ $\phi + eV_s' = eV_s - eV_s'$ $2eV_s' = eV_s - \phi$ $V_s' = \frac{V_s}{2} - \frac{\phi}{2e}$

Qn	Ans	Solution
		Therefore, $V_s' < \frac{V_s}{2}$.
28	D	$p = mv$
