

$$= 0.72E$$

16 D $I = \frac{P}{2\pi rd} \propto \frac{1}{r}$

$$I \propto A^2$$

$$\therefore A \propto \frac{1}{\sqrt{r}}$$

$$\frac{A'}{2.0} = \sqrt{\frac{150}{1200}}$$

$$A' = 0.71 \text{ mm}$$

17 C Unpolarized light after passing through a polarizer, its intensity is halved (therefore we
