

2025 H2 Physics P2 Solution

- 1 (a) The distribution is not uniform with more mass loaded nearer to the left. B1
- (b) Resultant force on the boat is zero B1
Resultant moment about any pivot is zero B1
- (c) $T_1 + T_2 = 15000$ C1
 $15000(0.75) = T_2 (2)$
 $T_1 = 9400 \text{ N}$ A1
 $T_2 = 5600 \text{ N}$ A2
- (d) $Wd = 15000 (30)$ B1
 $P = 15000 (30)/12$
 $= 37500 \text{ W}$
