

Q5 Ans: B

Torque by 30 N couple = $30 (2)(0.065) = 3.9 \text{ N m}$ (anti-clockwise)

Torque by 25 N couple = $25 (2)(0.12) = 6.0 \text{ N m}$ (clockwise)

Torque by 15 N couple = $15 (2)(0.10) = 3.0 \text{ N m}$ (clockwise)

Net torque = $3.0 + 6.0 - 3.9 = 5.1 \text{ N m}$ (clockwise)

Q6 Ans: B
